[Issued patents](#)[Applications](#)Heated gas **composition** sensor structure

US Pat. 4339320 - Filed Oct 6, 1980 - Robert Bosch GmbH

... HEATED GAS **COMPOSITION** SENSOR tube of solid ion conductive **material**, ... Theuse of heating elements limited to **sensors** capable of determining the ...Catalyst **composition** and multi-functional sensor

US Pat. 4692429 - Filed Dec 23, 1985 - Research Association of Electric Conductive Inorganic Compounds

13 shows the CO re- Ti, Zr and Hf) to the **material** of the formula 5 moval rate,Fig. ... thereby the atmospheric gas **composition** of said **sensors** using an ...Method of making a vibration-resistant electrical component and connection ...

US Pat. 4524038 - Filed Sep 27, 1982 - Robert Bosch GmbH

A layer- suitable, for example, as an exhaust gas **composition** electrode whichmay ... bonding **material** is intro- ramic **material** or the like, and on which an

...

MULTISPECTRAL SENSOR MEANS MEASURING

US Pat. 3822098 - Filed May 2, 1973

5 makes it different from other multispectral **sensors**, ing geometry, ... dependson the refractive index of the **material composition**, color and so forth. ...Gas **composition** sensor and method for separately detecting components of ...

US Pat. 5889196 - Filed Jan 6, 1997 - Hitachi, Ltd., Hitachi Car Engineering Co., Ltd.

However, the proposal does not propose any practical structure nor any practical

material for the **sensors**, but discloses only a proposal in regard to ...Exhaust sensor including a composite tile sensing element and methods of ...

US Pat. 5384030 - Filed Feb 15, 1994 - General Motors Corporation

The electrolyte tape is pre-made from a variant gradient of dielectric and electrolyte **material, composition** including a dry electrolyte powder such as 2.

...

Capacitive fuel **composition** sensor with slow oscillator and high speed switch

US Pat. 5231358 - Filed Dec 18, 1991 - General Motors Corp., National Semiconductor Corp.

Several types of fuel **composition sensors** for vehicle Referring to FIG. 1, a

motor vehicle 10 is provided engines are known in the prior art. ...
